OBJECTIVE

Enthusiastic and detail-oriented Master Of Computer Applications seeking a Junior Java Developer role. Possesses strong foundational knowledge in Core Java, OOPs concepts, and relational databases. Eager to apply academic learnings and internship experience to build scalable applications while contributing to team success.

PROJECTS

Furniture Mart (E-Commerce Web Application)

— *Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript*

Project Description:

Developed a full-stack e-commerce web application for a local furniture business, enabling users to browse and purchase products online while providing an administrative dashboard for inventory and order management.

Key Responsibilities & Features:

- **CRUD Operations:** Built robust RESTful APIs using Spring Boot to perform complete CRUD (Create, Read, Update, Delete) operations on the product catalog.
- **Role-Based Authentication (Admin & User):** Implemented secure login and registration features, separating the Admin Panel (to manage products, track stock, and view orders) from the User Panel (to browse items, manage carts, and view order history).

EDUCATION

Master Of Computer Application— Silver Oak University, Ahmedabad

2025 | CGPA: 8.5

SKILLS

- java , advance java, hibernate, spring boot, Mysql, basic C++,Html, Css, Js..

HOBBIES

- Exploring open-source projects and learning new tech frameworks.
- Playing strategy-based games like Chess.
